

You have free days. We tell you where and when.

TripAI starts from your free days, ranks real trips for them, and shows where every price comes from.

MEET OLA

“Where should I go, and is this even the right weekend?”

Ola, 29, Kraków

Free 7–11 Nov

Budget 1,800 PLN

Avoids crowds

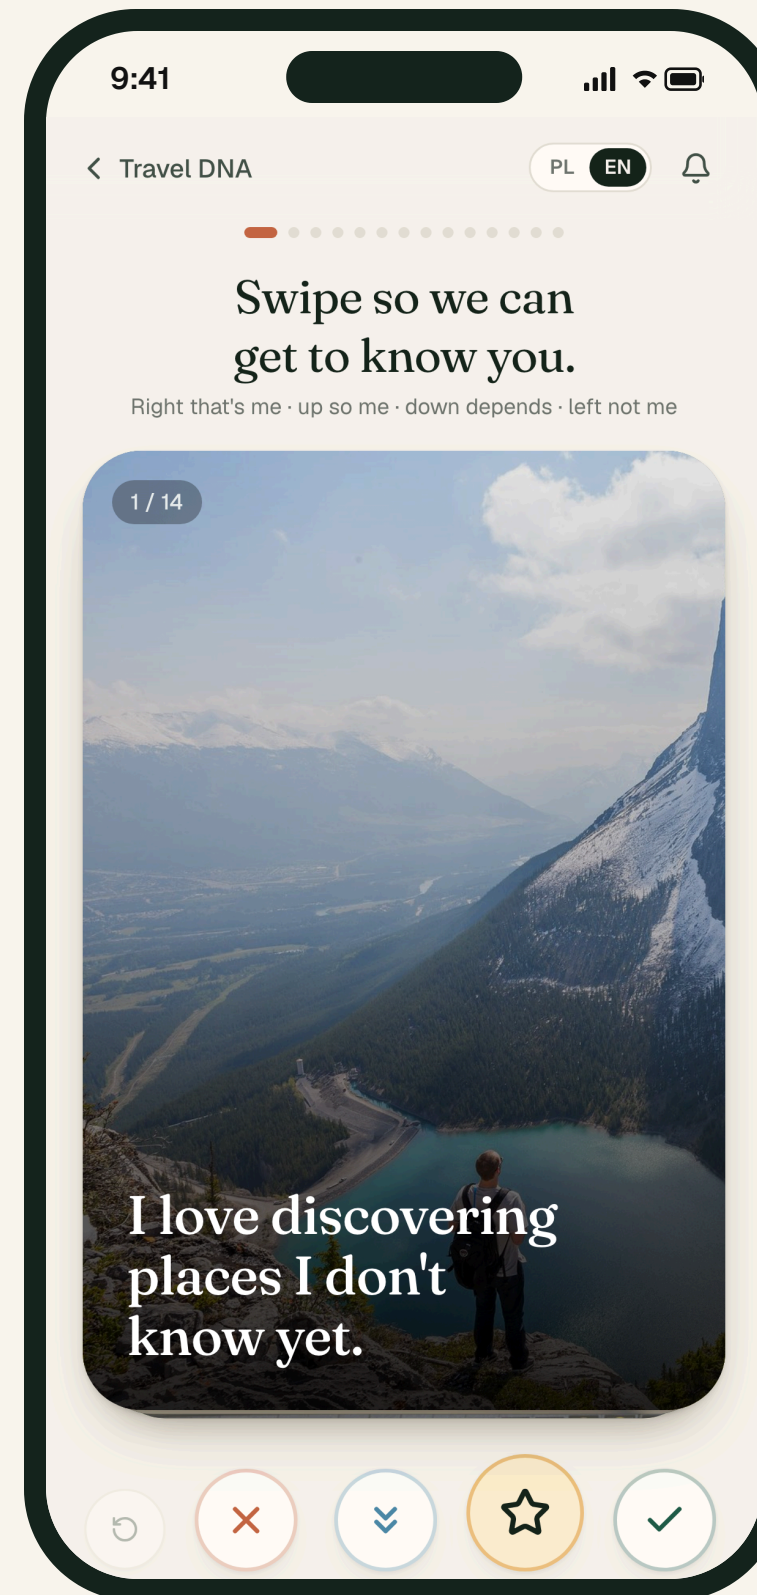

89% of travellers want AI to help them plan

12% would let AI decide on its own

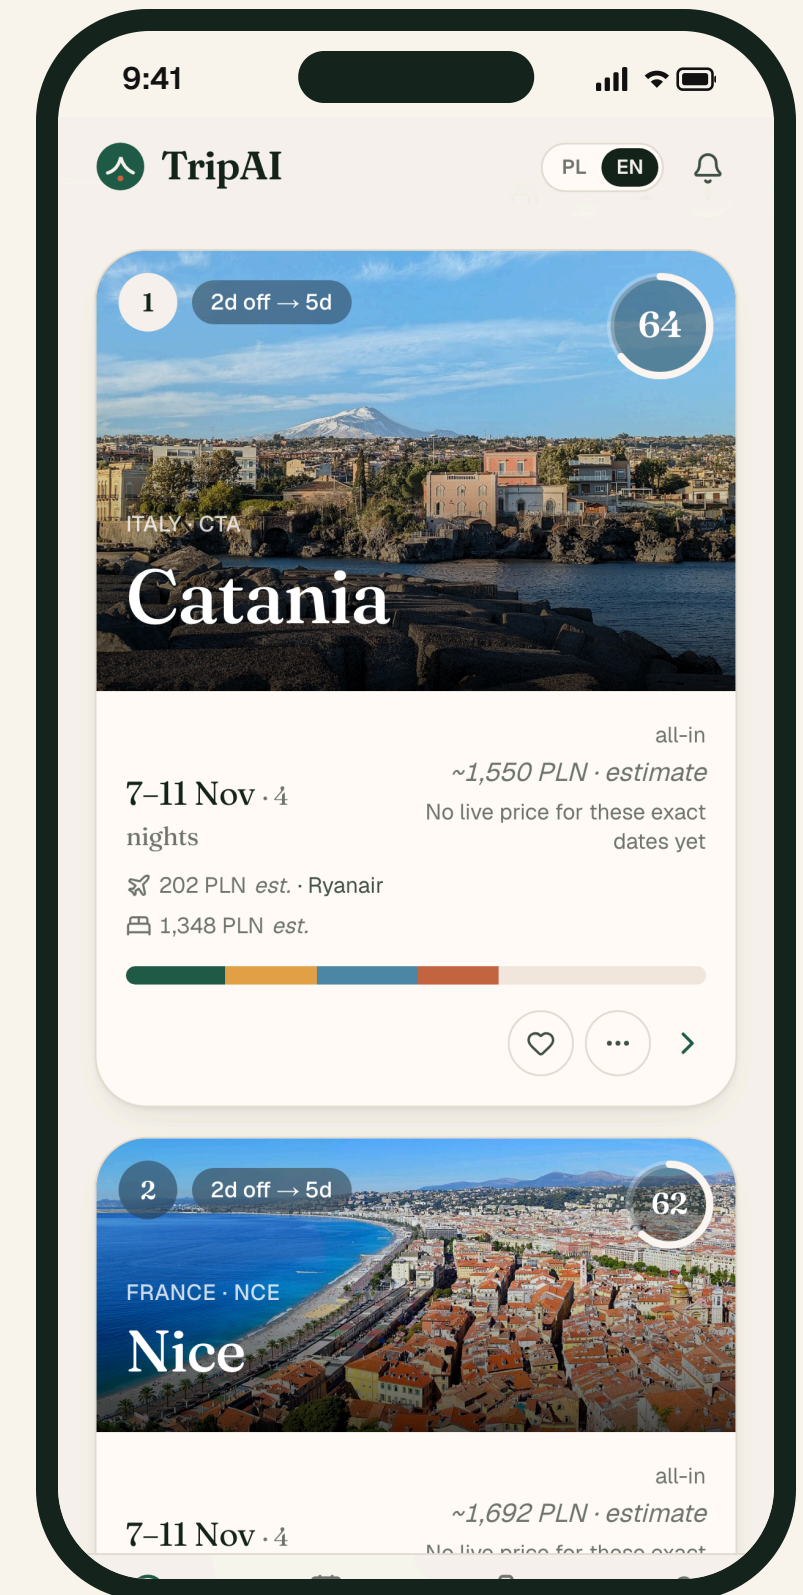

THE PRODUCT

Fourteen swipes, then a ranked list for her dates

No destination to type. TripAI ranks trips for 7–11 Nov: two days of leave, five days away.

Travel DNA

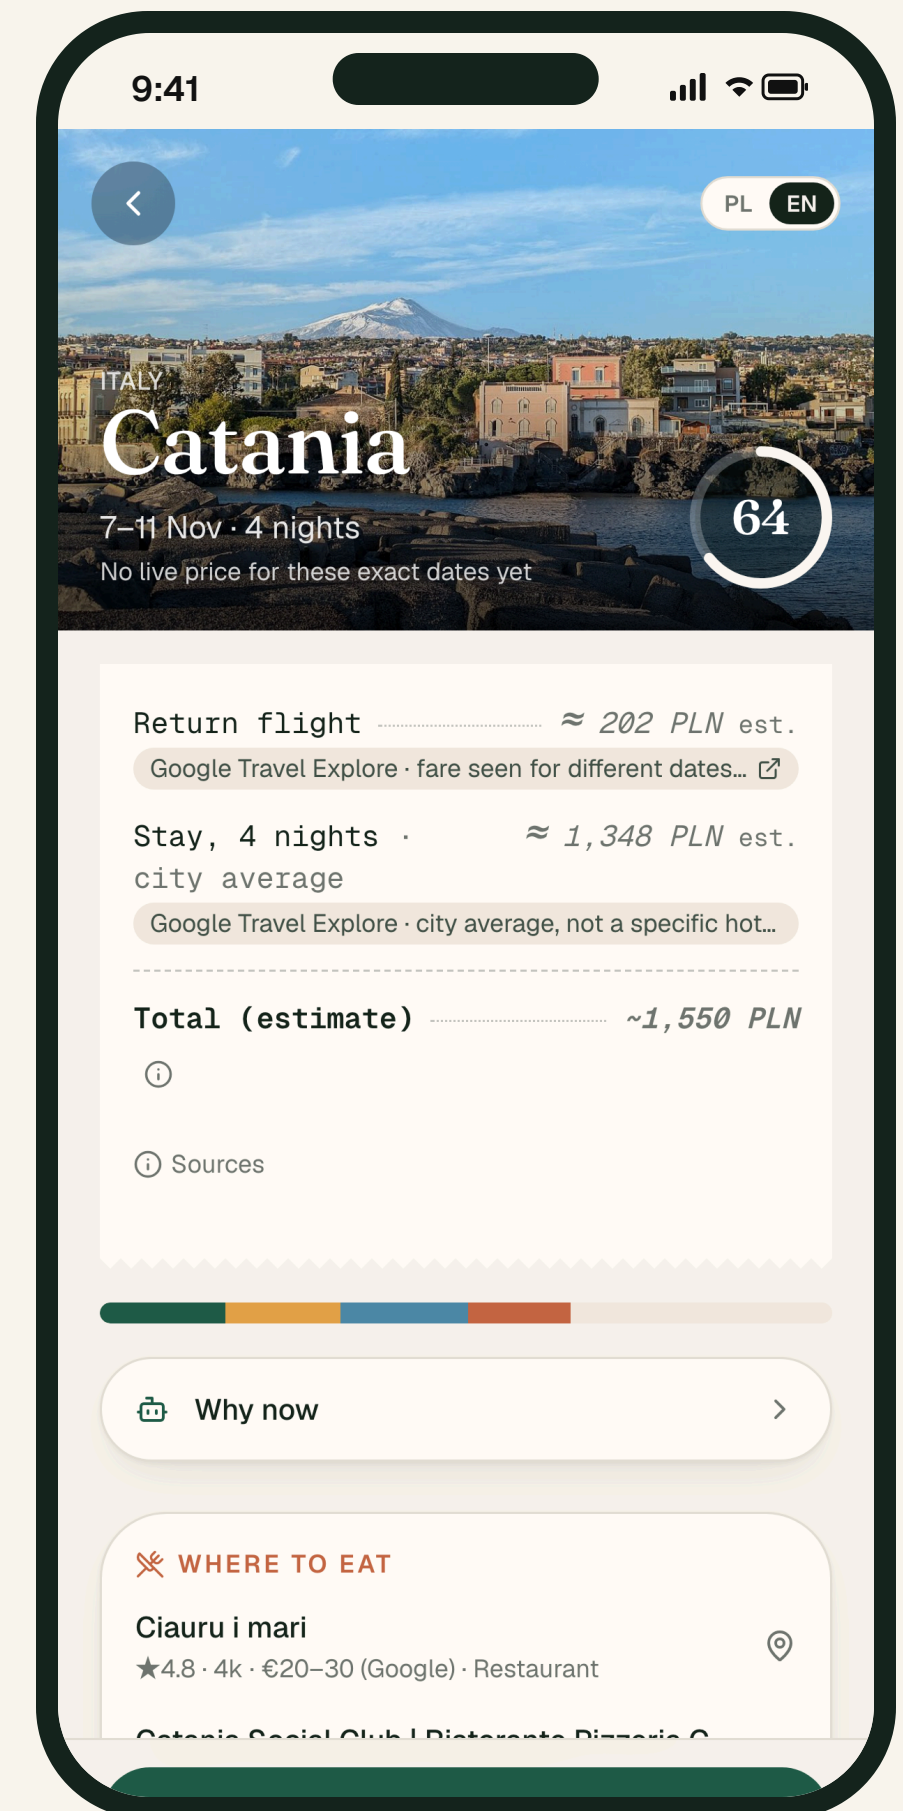

Ranked for 7–11 Nov

TRUST

Every price says where it came from

If a fare was seen for other dates, or a stay is a city average, the trip page says so, with the source.

HOW IT WORKS

How the ranking is made

- 1 Prices, weather, crowds and Polish holidays come from named sources.
- 2 A fixed formula orders the trips. The same inputs give the same order.
- 3 AI checks the fit with your taste and explains it. It never sets a price or the order.

WHY TRIPAI

It keeps looking after you close the app

A daily scan checks your free days against new prices and only pings you when a trip is worth it. A chat assistant waits to be asked.

Google Flights, Kayak AI Mode, Mindtrip and eSky MAIA each cover part of this. None of them starts from your free days.

BUSINESS MODEL

Revenue comes from bookings, not from placement

0 PLN

for travellers

~36 PLN

partner commission on a 1,800 PLN trip, at an assumed 2%

~19 PLN

a month for Premium alerts and group trips, still to be tested

Commission is not an input to the ranking.

Long weekend, 7–11 Nov. Where would you go?
